- The majority of our customers that have this style kiosk recovered their initial investment in less than one year of operation.
- Dimension (mm): 628(L)*540(W)*1690(H)
- Gross Weight (KG): 115

Three points to note: digital, automatic and self-working

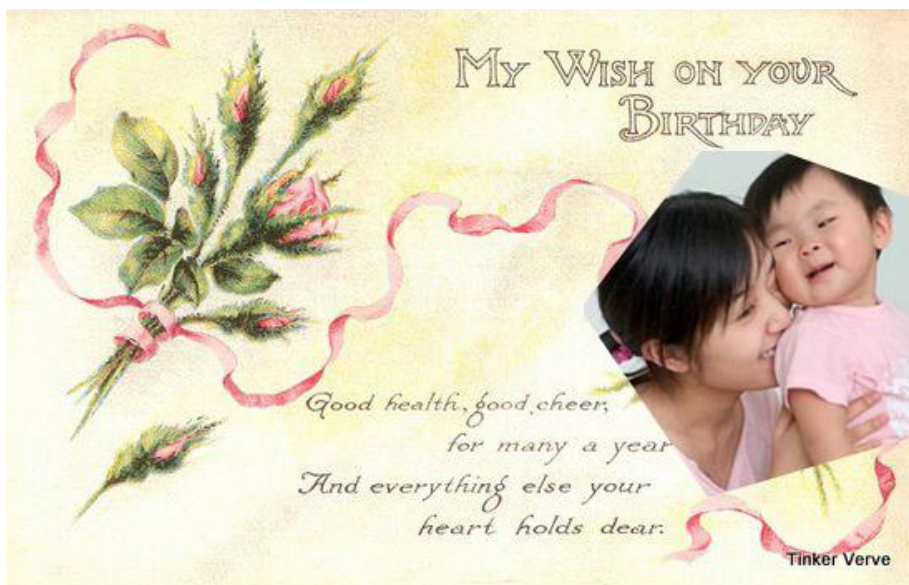

Have you ever thought, your funny comedy scene and warm group photo will no longer only stay in the computer and photo album?

Our DIY postcard kiosk helps you to turn them into postcards. As long as you want, any pictures in hand can be turned into postcards, and be mailed to your friends and family to convey your special blessing.

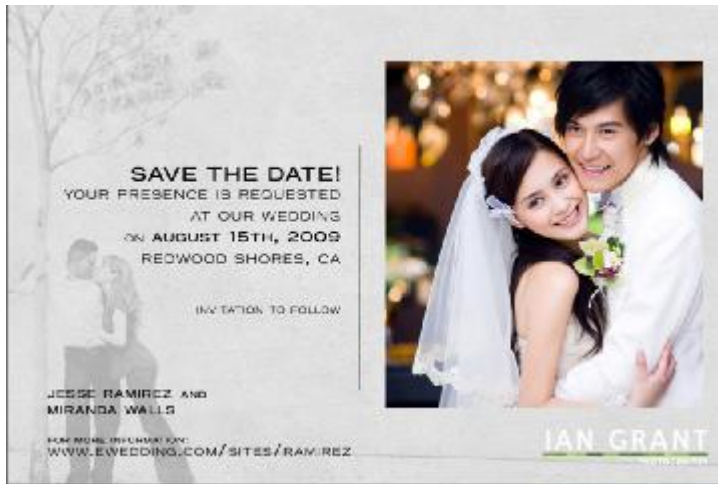

Our postcard kiosk is well digitally equipped, and can be connected to various camera cards, phone cards, U disk, Bluetooth. After one has dumped his pictures into the machine, he can edit them in the form of a postcard by following step by step the instructions on a touching screen. The card editing is quite simple: numbers of designs are previously installed in the machine and one needs only to pick the card style he prefers to go with his photos. As long as all the operation is done, it does not take more than ten seconds to get the postcard printed with a great quality picture.

Tour

Paper-cut is the traditional Chinese culture. It's created by the working people to meet their spiritual needs, which later become an art style.

It's survived in the working life of deep soil, free from the constraint of utilitarian thoughts and values, embodies the most basic of human artistic aesthetic and spiritual quality,

If you like Chinese paper-cut art and want to share such with your friends, choose our postcard kiosk and you can send such beautiful art together with your best wishes to friends.
